Berkeley, California 94708

Summary

Mechanical engineering student with hands-on experience in CAD design, robotics, and team based engineering projects. Strong background in problem solving, engineering processes, collaborative projects and leadership

Experience

Tustin Cadillac - Sales Porter
Tustin, CA
10/2023 - 05/2024

- Coordinated deliveries and supported preparation processes with attention to detail.
- Adapted to varied tasks, ensuring efficiency and teamwork.

Projects

University Rover Challenge (URC 2024–2025) – Mechanical/Electrical Team Member & Drone Pilot

- Designed and integrated electrical and mechanical rover subsystems.
- Integrated and debugged analog/digital sensors for science system PCBs.
- Piloted and coordinated drone operations for remote sensing tasks.
- Helped the team place **17th overall in the international URC competition**.

Horizon Grand Prix (H2GP 2022–2023) – Team Leader & Driver

- Directed the team in the design, testing, and racing of PEM Fuel Cell RC cars.
- Managed sponsorship, documentation, and race logistics.
- Drove the team car to qualify for the **World Finals in Las Vegas**.

Formula SAE (FSAE 2025-current) – Berkeley Formula Racing Engine Team Member

- Designed and simulated engine subsystems.
- Conducted CFD simulations to optimize intake flow and exhaust performance.
- Collaborated with teammates to meet design reviews, manufacturing deadlines, and system integration milestones.
- Manufactured and installed parts for different subsystems.

Education

Expected in 05/2027
University of California, Berkeley
Berkeley, CA
Bachelor of Science: Mechanical Engineering

05/2025
Saddleback College
Mission Viejo, CA
Associate of Science: Mechanical Engineering

Skills

- Solidworks CAD Design.
- Altium Design experience.
- Robotics and engineering teams.
- Soldering.
- wiring.

Certifications

- SOLIDWORKS CAD Design Associate
- Recreational UAS Certificate.
- Automotive Technician Fundamentals.
